## Benefits:

The benefits of the individual components of Tibet Spray have been known for centuries, and in addition to being used in traditional Himalayan medicine, their benefits are passed down from generation to generation in many other civilizations.

### **Tibetan Sea Buckthorn Fruit Oil**

The oil is the pure essence of sea buckthorn fruits in a super concentrated form. It is obtained from the whole fruit of the original alpine variety of Tibetan sea buckthorn by a very expensive, but gentle and efficient, method of CO<sub>2</sub> extraction.

Sea buckthorn contributes to the normal function of the immune system, has a positive effect on heart health, supports the proper functioning of the digestive tract, has a positive effect on skin health and is an antioxidant.

### **Rosemary Leaf Extract**

It supports the proper function of the respiratory system, strengthens the body's natural defenses, promotes emotional comfort in stressful situations, helps the proper excretion and cleansing of the body and is an antioxidant.

### **Chamomile Flower Extract**

It supports the proper function of the respiratory system, digestion and has a beneficial effect on liver function.

### **Horsetail Extract**

It supports the normal function of the respiratory system and contributes to the overall proper functioning of immunity, has a positive effect on the urinary and cardiovascular system and contributes to the normal condition of the skin and tissues.

### **Sage Leaf Extract Medical**

It supports the normal function of the respiratory system, contributes to the proper functioning of immunity, is an antioxidant, promotes proper digestion and excretion and helps maintain normal blood glucose levels.

### **Extract from Stinging Nettle Leaf**

It promotes healing, contributes to the proper functioning of the respiratory system, helps maintain normal skin condition, is an antioxidant and helps excrete water from the body, has a beneficial effect on the gastrointestinal system, bowel and intestinal microflora and contributes to normal functioning of the urinary tract, kidneys and vascular system.

### **Lemon Balm Extract**

It supports the normal function of the respiratory system, has a positive effect on heart health, helps mental health and well-being, contributes to a positive mood and normal sleep, supports the normal functioning of the cardiovascular system and is an antioxidant.

### **Extract from Humulus lupulus (the Common Hop)**

It has a calming effect, helps to induce healthy sleep and peace of mind, is an antioxidant and helps maintain normal blood cholesterol levels.

### **Extract of Leaves, Seeds and Skins from Wine Grapes**

It has a supportive effect on blood circulation, is an antioxidant and has a positive effect on the normal functioning of the heart and vascular system.
